## BMW E46 Manual Transmission Fluid Replacement | BMW 325i ...

The following are steps highlighting replacing the transmission fluid in a BMW E46 with a manual gearbox. Drive your vehicle for about five minutes to warm the transmission fluid. Jack up all four corners of your vehicle. I suggest using four jack stands and slowly raising the vehicle to the required height.

## Manual Transmission Fluid Change | BMW E46 3 Series DIY

I used my fill tube rig to fill up the transmission until it leaked out the fill hole. 15) With the transmission full, clean and reinstall the fill plug and torque to 44lbs-ft (I think). 16) I sprayed the transmission off with a bit of brake cleaner to remove the fluid that leaked out of the drain hole.

## BMW DIY – Manual Transmission and Differential Fluid ...

Changing Manual Transmission & Differential Fluids: Easier Than You Think, More Important Than You Know. While all of us know the importance of regular engine oil changes – and the penalties of neglecting this common maintenance task – there are two other important fluid changes that we tend to ignore.

## Transmission and Differential Fluid for BMW

1990s-2000s 5-speed and 6-speed ATF (excluding E46 M3, E9X M3, Z4M) From the mid-1990s, nearly all BMW manual transmissions, except 6-speed M models, use a Dexron III ATF oil, indicated by an "ATF" label on the transmission.

## BMW 3

Your manual transmission can take a heck of a beating over the years and it is one of the most neglected service

areas on a car. The fluid assists in the lubrication and heat disputation of the transmission, and even though it is in a closed environment, the fluid can become old and contaminated.
