How and Why to Change Your Manual Transmission Fluid

Your car's manual transmission fluid is more important than you think. Though it doesn't have to be changed as often as motor oil, fresh gearbox fluid keeps your stick-shift transmission from ...

Manual Transmission Oil Change: 7 Steps (with Pictures)

Manual Transmission Oil Change: Most people ignore transmission fluids. Even worse most people only talk about the importance of flushing an automatic transmission. If you have a manual transmission automobile, don't neglect that gearbox. Old oil can have metal shavings in it...

How to Change Manual Transmission Fluid

In this video, I change the manual transmission fluid from the VW Golf. Since I bought the vehicle used, I thought it would be a good idea to give it some new fluids to bring it back to life. The ...

Do You Really Need to Change the Transmission Fluid ...

Manual transmissions require more conventional gear oil rather than ATF and tend to be on a different maintenance schedule, so it's best to consult the service intervals in the owner's manual.

Change manual transmission fluid?

100,000 miles used to be a decent fluid change interval on a manual transmission. The gear oil, on an atomic level, is made of long-chain molecules that prevent wear by literally keeping the gear teeth from contacting each other. Over the thousands of miles of driving the shearing action of the gear teeth tends to chew up these long chain molecules.

Transmission Flush & Fluid Change | Firestone Complete ...

TRANSMISSION FLUSH AND FLUID CHANGE. The transmission fluid exchange process differs between an automatic and manual transmission, but the end result is the same: a more efficient transmission, better fuel economy and the avoidance of transmission repairs caused by neglected transmission fluids.

Should I change my manual transmission fluid? | Jeep ...

Location: Tucson, AZ, United States. The Muddog also has the NV 3550. Last summer, I started having trouble shifting gears. It got to the point that I had to really baby the clutch and shifter to get anywhere. Our own Jerry Bransford recommended that I change the transmission fluid with Red Line SAE 75W80 API GL-4.

Gear Oil 101: Which Lube is Right for Your Manual ...

Keep in mind that most modern manual transmissions have gear oil service intervals well north of 50,000 miles, with many being "lifetime" oils. Driving enthusiasts, however, change gear oil to deliver improved transmission

performance—like smoother shifting or added durability in extreme conditions. If this sounds like you, keep reading.
